Classroom: **KB 223 (Knowles Building)**

We use a course management system MOODLE. Please login to your HKU Portal account to access MOODLE. You are urged to ask questions about the course via the MOODLE platform.

Professor Y C R Wong’s video lectures and PowerPoint slides will be available online as the class progresses. Students are expected to watch the video lectures before coming to the weekly scheduled class period. Class time will be devoted to discussing key issues to deepen and broaden our understanding of the material. The first class-period will also be used to explain how Moodle works.

**Description:**

The course provides a theoretical and empirical understanding the political economy of law and public policy making, examines how law and regulation affects with policy outcomes, and familiarizes students with economic concepts and tools useful for analyzing policy issues. Topic covered include, public goods, externalities, monopolies, regulation, rent seeking, law and economics, law enforcement, legal systems and public bureaucracy.

**Aims:**

1. To provide a theoretical and empirical understanding of the political economy of law and public policy;
2. To study in depth the concepts of public goods, externalities, monopolies, regulation, rent seeking, law enforcement, law and economics, public bureaucracy, and political business cycles to gain a good understanding political economic analysis;
3. To familiarize students with the applications of political economic analysis to analyze important policy issues.

**Prerequisite:**

Students should have studied microeconomic theory and macroeconomic theory at the intermediate level.

**Course Intended Learning Outcomes (CILOs)**

Upon completing this course, students should be able to:

CILO1 Enhance theoretical and empirical understanding of the application of political economic analysis to public policy issues.

CILO2 Learn to apply economic concepts to the study of politics as a form of non-market behavior;
CILO3: Develop the critical ability to analyze the differences between the political economic approach to public policy with a purely economic approach;

CILO4: Develop analytical thinking through analyzing the intended and unintended effects of public policy choices on policy outcomes using rigorous analytical tools.

Course Assessment:

There are two assessment requirements for this course: (1) five in-class quizzes (50%) covering topics taught in the course conducted at times indicated above on page 1, and (2) a written paper of 1500 words as coursework (50%). The course grade 100% is determined as the sum of two assessment requirements.

Quizzes
Five in-class quizzes will be conducted. You must complete and submit every quiz. Failure to submit ANY ONE quiz means you have FAILED 50% of the entire course.

Written Paper

The written paper should examine in depth a specific topic studied in the course. It should be a thoughtful examination of a topic discussed in this course based on the materials assigned in the reading list. There is NO need to consult additional reading materials. Students should NOT submit a piece of work that is also being submitted to another course. Here are some good approaches:

1. Write a review of one of the topics learned in this course.
2. Compare and contrast the analysis between two topics on a related subject.
3. Write on a topic that is discussed in several assigned books or papers.
4. A policy paper studying a specific policy in a jurisdiction.
5. Consult with Dr Vera Yuen for advice in deciding on a topic.

The final written paper is due on 16 May 2020, which is one week after the revision period and 2 weeks after classes have ended. Late submissions will NOT be accepted. A precise word count must be given at the end of the paper. Footnotes and references should be placed at the end of the paper so that they can be excluded from the word count. Appendices are not necessary and not appropriate for papers of such a short length and should not be submitted. It is advisable to seek English language assistance if needed to ensure that your paper is clear.

Nine weeks before the deadline for the final paper, students must submit a half-page proposal of the paper they intend to write. The deadline for submitting the proposal is 14 March 2020 after the Reading Week on. Late submissions will not be allowed. Students should include in the proposal the title of the project and a short summary of the subject they will investigate.

Students are also encouraged to submit optionally a first draft of the final paper for the instructor to provide feedback, but this is optional, not mandatory. If students choose to submit a first draft, they must do so at least 3 weeks before the deadline for the final paper on 25 April 2020. Your grade on the paper will depend only on your final paper, and not your draft.

If you submit a written paper, but DID NOT submit a proposal or the proposal was NOT APPROVED, then you will FAIL this part of the assessment.

Therefore, deadlines to be observed:

Proposal (mandatory) submission — 14 March 2020
First draft (optional) submission — 25 April 2020
Final paper submission — 16 May 2020

The proposal and paper(s) must be submitted electronically via MOODLE.

### Standards of Assessment

### Academic Conduct

1. The University Regulations on academic dishonesty will be strictly enforced! Please check the University Statement on plagiarism on the web: [http://www.hku.hk/plagiarism/](http://www.hku.hk/plagiarism/).
2. Academic dishonesty is behavior in which a deliberately fraudulent misrepresentation is employed in an attempt to gain undeserved intellectual credit, either for oneself or for another. It includes, but is not necessarily limited to, the following type of case:
   a. Plagiarism - The representation of someone else’s ideas as if they are one’s own. Where the arguments, data, designs, etc., of someone else are being used in a paper, report, oral presentation, or similar academic project, this fact must be made explicitly clear by citing the appropriate references. The references must fully indicate the extent to which any parts of the project are not one’s own work. Paraphrasing of someone else’s ideas is still using someone else’s ideas, and must be acknowledged.
   b. Unauthorized Collaboration on Out-of-Class Projects - The representation of work as solely one’s own when in fact it is the result of a joint effort. Where a candidate for a degree or other award uses the work of another person or persons without due
acknowledgement:
• The relevant Board of Examiners may impose a penalty in relation to the seriousness of the offence;
• The relevant Board of Examiners may report the candidate to the Senate, where there is *prima facie* evidence of an intention to deceive and where sanctions beyond those in (1) might be invoked.
